TECHNICAL DATA SHEET

JOKISCH FOTIA MILO C.F (Jokisch Cleaner Fat CF 1111)

Silicone free, anti spatter paste / separating agent for the burner heads and contact tips for MIG and MAG welding.

Silicone free - odourless

APPLICATION

Prevents the sticking of welding spatter to welding nozzles / tips and guarantees an extended service life.

Dip hot nozzle 20 to 30 mm into Jokisch **Fotia Milo C.F**.

CHARACTERISTICS

- Reliably prevents the burning of welding spatter in burner heads in all inert gas welding processes - very effective separating agent for the burner head
- In the case of contact welding, it prevents the contact tip from burning
- Adhesive / clogging of the nozzles is impossible, a perfect mixing gas atmosphere is guaranteed
- No pore formation in the weld metal
- Extend the service life of burner heads, nozzles and contact tips
- The product is not hazardous and does not require labelling
- No generation of toxic fumes, since chlorine, amine, and sulfur-free

STORAGE

Storage temperature:	5 – 40°C
Storage time:	12 months

Date: 03.04.2025
